Research Group: <https://database.cs.wisc.edu/>

Office: #4360, 1210 W Dayton St, Madison, WI 53706  
Department of Computer Sciences  
University of Wisconsin–Madison

## Education

- 2024–on     **PhD in Computer Science**, University of Wisconsin–Madison, Advisor: Prof. Xiangyao Yu  
Relevant Coursework: Foundations of Data Management, Game Theory, Optimization & Learning, High Performance Computing for Applications in Engineering
- 2023–2024     **MSc in Computer Science**, Carnegie Mellon University, Advisor: Prof. Andrew Pavlo  
Relevant Coursework: Advanced Database Systems, Advanced Operating Systems and Distributed Systems, Deep Learning Systems, Computer Architecture
- 2018–2021     **BSc in Computer Science**, Carnegie Mellon University, Graduated with University Honors  
Relevant Coursework: Operating System Design and Implementation, Database Systems, Optimizing Compilers, Introduction to Computer Security, Computer Graphics

## Research Experience

- 2024–on     **University of Wisconsin–Madison**, PhD researcher, Supervisor: Prof. Xiangyao Yu  
Researching GPU-accelerated memory compaction and database systems.
- 2023–2024     **Carnegie Mellon University**, Master’s researcher, Supervisor: Prof. Andrew Pavlo  
Researching the database system extensibility ecosystem.
- 2020–2021     **Carnegie Mellon University**, Undergraduate researcher, Supervisor: Prof. Andrew Pavlo  
Utilizing just-in-time (JIT) compilation techniques to increase index key comparator performance.
- 2019–2020     **Carnegie Mellon University**, Undergraduate researcher, Supervisor: Prof. Afsaneh Doryab  
Researched the correlation between student performance and lifestyle factors, using data collected from smart devices.

## Publications

- 2025     Anarchy in the Database: A Survey and Evaluation of Database Management System Extensibility. **Abigale Kim**, Marco Slot, David G. Andersen, Andrew Pavlo. To appear in VLDB 2025.
- 2021     Understanding Health and Behavioral Trends of Successful Students Through Machine Learning Models. **Abigale Kim**, Fateme Nikseresht, Janine Dutcher, Michael Tumminia, Daniella Villalba, Sheldon Cohen, Kasey Creswel, J. Creswell, Anind Dey, Jennifer Mankoff, and Afsaneh Doryab. IHET-AI 2021.

## Talks

- 2024     Anarchy in the Database: A Survey and Evaluation of Database Management System Extensibility, PGConf.dev 2024. [\[Slides\]](#) [\[Video\]](#)
- 2023     Database Management System Extensibility, Parallel Data Retreat 2024. [\[Slides\]](#)

## Posters

- 2025     GPU Databases - The New Modality of Database Analytics, University of Wisconsin–Madison, Prospective Student Visit Days 2025. [\[Poster\]](#)
- 2023     Survey of Database Management System Extensibility, Parallel Data Retreat, 2023. [\[Poster\]](#)

## Experience

---

- 2024–2024 **TileDB Inc.**, Software Engineer  
Developed a Rust API for the TileDB storage engine.
- 2022–2023 **TileDB Inc.**, Software Engineer  
Redesigned query engine to support complex predicates. Worked on data pipelining features.
- 2021–2021 **YugabyteDB**, Software Engineering Intern  
Implemented cluster mapping-update integration during asynchronous tablet split.
- 2020–2020 **Amazon Web Services, Redshift**, Software Development Engineering Intern  
Designed and implemented a scalable service improving Redshift database cold-start performance.
- 2019–2019 **Amazon**, Future Engineer Software Development Engineering Intern  
Developed web publishing platform used by 6,000 Amazon content merchandisers,

## Awards

---

- 2022 **Senior Leadership Recognition**, Awarded to graduating seniors from Carnegie Mellon University who have made an unparalleled impact on the CMU community.
- 2022 **University Honors**, Awarded to graduating seniors from Carnegie Mellon University who graduated with a GPA above 3.5.

## Teaching

---

- 2023–2023 **Carnegie Mellon University**, Database Systems Teaching Assistant
- 2021–2021 **Carnegie Mellon University**, Introduction to Computer Systems Head Teaching Assistant
- 2020–2021 **Carnegie Mellon University**, Introduction to Computer Systems Teaching Assistant
- 2019–2020 **Carnegie Mellon University**, Principles of Imperative Computation Teaching Assistant
